

SHADE RANGE

WHITE CARRARA MARBLE

HERE'S WHAT YOU NEED TO KNOW.

- The most important part of the installation process is having your installer sort and blend the marble correctly.
- We suggest opening all boxes and sorting pieces into lightest, medium, darkest, then pull from each pile evenly when installing. This is especially important when working on an installation that covers a large area.
- The entire block of marble is not dedicated to smaller sizes. This means that smaller sizes won't have as many pieces from the same block, with the same veining and coloration

OUR GOAL IS TO HELP YOU CREATE A BEAUTIFUL
INSTALLATION TO ENJOY FOR MANY YEARS.
